File Audits

You were all notified recently that we will be beginning file audits in January. The audit schedule for Q1 2019 and audit standards were included in an email sent on December 10th, Now the time is upon us and we will be starting those audits next month. Each clinician will have 3 files selected, 2 open and one closed, on their assigned week. Files will be randomly selected. We will get feedback to you on your files in a timely manner. If you have any questions about the process, please contact Anne or Kathleen

Year-End

As we get ready to wind down 2018 (I know, I can't believe it either!) Please turn in your weekly logs as quickly as you can – let me know if you will NOT be seeing anyone during the last week of the year so that I have everything up to date.

Life at Parkside (during COA!)

Our initial COA reports were all completed by Anne and submitted officially in November. We are on target with a few tweaks needed to our Risk Management plan. Final reports and requirements are due mid-January so we will be pushing hard until then to be sure that everything is complete and in order. After which we will be preparing for our visit in March – you may be quizzed, so we will try to prepare you!

We spent some time in November getting surveys out to our clientele, partners, staff and community members for COA. You may have gotten a couple of returned envelopes in your box with a request to update the address of some of your current clients, if possible. **PLEASE** be sure to log in and complete your survey too! We are required to have a percentage of surveys for each category completed by our review time in March, so we will be working to get as many completed as we can.

Anne has worked incredibly hard to make this process smooth and as painless as possible to everyone here and we thank her for all of her hard work and dedication to the COA process! Just under four months to go!
